

Technical specifications

rechnical specifications		
Power with 1 battery***	1.700 Wattage (2,3 HP)*	
Power with 2 batteries	3.000 Wattage (4,1 HP)*	
Max. speed	45 km/h	
Battery 28 Ah (removable)	Lithium-ion/10 kg/380×265×75 mm	
Battery 37 Ah (removable)	Lithium-ion/11 kg/400×265×75 mm	
Single battery capacity Max. range at 45 km/h (at 25 km/h)**	1×28 Ah	1×37 Ah
	50 km	65 km
Dual battery capacity Max. range at 45 km/h (at 25 km/h)**	2×28 Ah	2×37 Ah
	100 km	130 km
Battery charging time	Depending on battery and charger (8 A or 15 A) between 2–4 hrs	
Moped kit possible (25 km/h)	On demand	
Dimensions (H x W x L) / Bench height	1080×775×1885 mm / 760 mm	
Weight without batteries and top case	79 kg	
Max. load	271 kg	
Max. gradibility	_14 %	
No. of riders	2 people	
Tire size front / back	3,5–10	
Front brakes	Hydraulic disc brake	
Rear brakes	Hydraulic disc brake	

^{*} Depending on the battery configuration and state of charge.

** Depending on speed, rider weight, terrain and temperature.

*** At 1.700 watts, the power does not increase to 3.000 watts if a second battery is used.
